TABLE OF CONTENTS

	Preface	*v*
Chapter 1	**Electrochemical Reduction of Carbon Dioxide: A Comprehensive Review from Electrocatalyst Development to System-Level Engineering** *Tanushree Manohar Sukul, Suyog Sanjay Mane*	01 -15
Chapter 2	**Biological Applications of Steroidal-Isoxazole Hybrids in Drug Development** *Pravin S. Bhale*	17-32
Chapter 3	**Perovskite Solar Cells: A Match Made in Energy Heaven?** Suyog Sanjay Mane, Tanushree Manohar Sukul	33-45
Chapter 4	**Organocatalyzed Chemical Transformations: A Sustainable Approach** *Suryakant B. Sapkal, Suchita S. Gadekar, Balaji R. Madje*	47-62
Chapter 5	**The Natural Products: It's Origin and Nature** *Yogesh P. Patil, Suhag S. Patil, Pradeep N. Jadhav*	63-72
Chapter 6	**Synthesis and Pharmacological Properties of Chalcones** *Atul Sarangrao Renge*	73-84
Chapter 7	**The Effect of Chemical Pollutants on Ecology: A Case Study with Emphasis on Mitigation Strategies** *Amardeep R. Jadhao, Sanjay S. Gaikwad, Shankesh C. Zyate, Sudhir R. Kohchale, and Santosh B. Gaikwad*	85-107
Chapter 8	**Metal Oxide Nanocomposite for Sustainable Development** *Sajid M. Mansoori*	109-140
Chapter 9	**Green Chemistry – The Basis for a Sustainable Future** *Hemant V. Chavan*	141-147
Chapter 10	**Synthesis and Analysis of 1,2,3-Triazol-1-yl Piperazine Compounds from 1-(3-azidopropyl)-4-(3-chlorophenyl) piperazine** *Sachin P. Shirame, Dattatraya K. Pawar, Netaji N. Karale*	149-166
